Professional Summary

Full Stack Developer with 6+ years of experience designing, engineering, and deploying scalable web applications, SaaS platforms, and business solutions. Experienced in React.js, Next.js, Node.js, TypeScript, AWS, REST API development, database design, and production deployments. Skilled in building secure applications, optimizing performance, improving database efficiency, and delivering reliable software solutions for real-world business requirements.

Technical Skills

Frontend: React.js, Next.js, Next.js App Router, TypeScript, JavaScript ES6+, React Hooks, State Management, Redux, HTML5, CSS3, Tailwind CSS, Responsive UI Development

Backend: Node.js, Express.js, REST API Design, API Development, JWT Authentication, API Security, Middleware, Business Logic

Database: PostgreSQL, MySQL, Prisma ORM, Amazon RDS, SQL Queries, Database Design, Data Modeling, Database Optimization

Architecture: Application Architecture, System Design, Scalable Applications, Performance Optimization

Cloud / DevOps: AWS EC2, AWS S3, AWS RDS, Docker, CI/CD, AWS Deployment, Deployment Automation, Server Configuration

Testing: Jest, React Testing Library, API Testing, Unit Testing, Integration Testing

Tools: Git, GitHub, Postman, WordPress, WooCommerce

Professional Experience

Full Stack Developer October 2025 – Present
Corona Creative Solutions Private Limited, Chennai

- Engineered production-ready applications using React.js, Next.js, Node.js, Express.js, TypeScript, Prisma ORM, PostgreSQL, and AWS.
- Designed application architecture, reusable components, REST APIs, authentication workflows, and scalable business logic.
- Implemented secure APIs with JWT authentication, validation, middleware, and optimized frontend-backend communication.
- Optimized database performance through schema design, query optimization, Prisma ORM improvements, and AWS deployment management.
- Integrated third-party services and external APIs while ensuring application reliability, security, and maintainability.

Front End Developer (React.js / Full Stack Development) January 2023 – February 2025
Alter Ego Communications, Chennai

- Built reusable React.js components and responsive user interfaces integrated with REST APIs for business applications.
- Optimized frontend performance through component improvements, efficient rendering, and application structure enhancements.
- Improved e-commerce platform performance with optimized UI solutions, resulting in 35% increase in online sales and 50% reduction in page load time.

Web Designer March 2020 – December 2022
Guires Solutions Private Limited, Chennai

- Designed and optimized responsive websites using WordPress, HTML, CSS, JavaScript, customized themes, plugins, and UI improvements.
- Improved website performance and usability through layout optimization, responsive design practices, and frontend enhancements.

Web Designer February 2019 – February 2020
Aximz Technologies Private Limited, Chennai

- Created responsive website layouts using Photoshop, WordPress, HTML, CSS, and JavaScript while converting designs into functional interfaces.
- Customized website layouts and optimized responsive designs for better usability, visual consistency, and cross-browser compatibility.

Key Projects

Full Stack SaaS Subscription Platform

- Built SaaS platform with authentication, subscription workflows, payment integration, REST APIs, database design, and AWS deployment using Next.js, Node.js, Prisma ORM, and PostgreSQL.

WooCommerce E-Commerce Platform

- Developed e-commerce solutions with product management, checkout workflows, payment integration, and performance optimization.

Responsive Web Application

- Built React.js applications with reusable components, REST API integration, responsive layouts, and frontend performance optimization.

Education

Bachelor of Engineering in Computer Science and Engineering
Mailam Engineering College 2012 – 2016
