Professional Experience

Full Stack Developer <i>Corona Creative Solutions Private Limited</i>	October 2025 – Present <i>Chennai</i>
---	---

- Developed and maintained full-stack web applications using React.js, Next.js, Redux, JavaScript, HTML5, CSS3, and responsive web technologies.
- Built reusable frontend components and responsive user interfaces for desktop, tablet, and mobile devices based on UI/UX designs and business requirements.
- Managed application state using Redux and integrated REST APIs for retrieving, creating, updating, and displaying application data.
- Supported backend development using Node.js, Express.js, and Prisma ORM, including API routing, request handling, validation, database operations, and frontend integration.
- Worked with MySQL and PostgreSQL for database queries, CRUD operations, data retrieval, schema management, and application integration.
- Deployed and supported full-stack web applications on AWS using Amazon EC2 for application hosting and production deployment.
- Used Amazon S3 for storing and managing application files, static assets, and related web resources, and worked with Amazon RDS for database hosting and application connectivity.
- Developed and customized WordPress pages, themes, plugins, Custom Post Types, and Advanced Custom Fields based on project requirements.
- Troubleshoot application issues and optimized website performance, responsiveness, cross-browser compatibility, and usability.
- Used Git and GitHub for version control and Postman for REST API testing and validation.

Front End Developer
Alter Ego Communications

January 2023 – February 2025
Chennai

- Managed web-design and frontend projects from initial requirements through development and final delivery using HTML5, CSS3, JavaScript, and responsive web technologies.
- Built dynamic and responsive web applications using React.js, JavaScript, HTML5, and CSS3.
- Created reusable React.js UI components and integrated REST APIs for retrieving and displaying application data.
- Used React Router and React Hooks to implement responsive layouts, smooth navigation, and interactive user experiences.
- Assisted with PHP, CodeIgniter, MySQL, database management, and SQL query optimization while developing dynamic website functionality.
- Developed and optimized a responsive e-commerce website, contributing to a 35% increase in online sales and reducing page-load time by 50%.

Web Designer
Guire Solutions Private Limited

March 2020 – December 2022
Chennai

- Designed, developed, and maintained responsive website projects using HTML, CSS, JavaScript, and WordPress.
- Customized website layouts, digital assets, and WordPress functionality based on client branding and business requirements.
- Customized WordPress themes and plugins according to client and business requirements.
- Improved website performance by optimizing images, caching, frontend code, and page-loading behavior.
- Managed website migrations, backups, maintenance, troubleshooting, and security optimization.

Web Designer
Aximz Technologies Private Limited

February 2019 – February 2020
Chennai

- Designed and developed responsive web pages using WordPress, HTML, CSS, and JavaScript.
- Converted UI/UX designs and mockups into functional, responsive, and interactive web interfaces.
- Collaborated with development teams to plan website requirements, project scope, and implementation activities.
- Improved website performance, mobile responsiveness, cross-browser compatibility, usability, and basic SEO.

Key Projects

Subscription-Based Web Platform

React.js, Next.js, Redux, Node.js, Prisma, AWS

- Developed a full-stack subscription-based web application using React.js, Next.js, Redux, Node.js, and Express.js.
- Built reusable UI components, managed application state with Redux, and integrated REST APIs for creating, retrieving, updating, and displaying application data.
- Integrated payment gateway functionality to support subscription payments and end-to-end payment flows within the application.
- Used Prisma ORM with MySQL/PostgreSQL for database operations and deployed application components using AWS EC2, S3, and RDS.
- Implemented form validation, loading states, error handling, and responsive user flows across desktop, tablet, and mobile devices.

WooCommerce E-Commerce Website

WordPress, WooCommerce, PHP, HTML5, CSS3, JavaScript

- Developed and customized responsive WooCommerce websites based on client branding, business requirements, and e-commerce workflows.
- Configured products, categories, variable products, shopping cart, checkout flows, and order management functionality.
- Integrated and configured payment gateways for secure online transactions and supported end-to-end purchase flows.
- Customized WordPress themes, plugins, page layouts, Custom Post Types, and Advanced Custom Fields (ACF).

Responsive Web Application

React.js, JavaScript, HTML5, CSS3

- Developed responsive and interactive web interfaces using React.js, JavaScript, HTML5, and CSS3.
- Created reusable React.js components and integrated REST APIs for retrieving and displaying application data.
- Improved mobile responsiveness, usability, and page-load performance through frontend optimization.

Education

Bachelor of Engineering in Computer Science and Engineering
Mailam Engineering College

2012 – 2016
